This is Delta Group

Our Mission

To provide innovative, clean and efficient energy solutions for a better tomorrow.

Delta constructed the world's largest solar energy system to power a sports stadium.

Corporate Culture

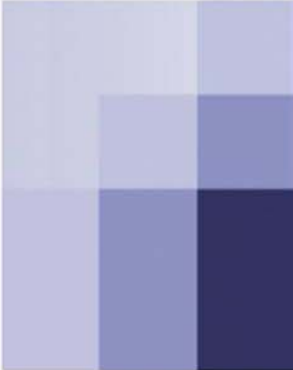

Dare to change, and pursue sustainability.

- **Innovation**
Effectively create new concepts and take them to success.
- **Customer Satisfaction**
Anticipate customer needs and exceed expectations.
- **Quality**
Deliver consistently superior performance and pursue every possible improvement.
- **Teamwork**
Fully leverage global value networks and collaborate to achieve mutual goals.
- **Agility**
Identify emerging trends and act quickly to capture new opportunities.

Delta Group Overview

- Company founded: 1971
- The Delta Group is a leading world-class provider of:
 - Power management and renewable energy solutions
World's No.1 in power supply solutions
 - Solar energy systems
World-class high-efficiency solar energy systems and products
 - Energy-saving LED streetlight systems
Innovative, high-efficiency modularized designs
 - Projection display systems for professional and commercial use
High brightness full HD projectors from 5,000 to 30,000 lumens
 - Automotive electronics systems and sub-systems
EV and HEV starter systems and battery packs
 - Industrial automation systems
Inverters, dedicated server systems and a wide range of highly dependable industrial controllers
 - Component solutions for IT, telecom, consumer, and automotive electronics
World's No.1 supplier of DC brushless fans
 - Networking and wireless products
Energy-saving networking devices and wireless broadband solutions
